Arishem Technologies SOP-104: Data Retention Policy

Effective Date: January 1, 2026

1. Introduction: This SOP outlines the data retention requirements for all employee logs and API prediction metrics.

2. Retention Period: All API prediction logs stored in the PredictionLog table must be retained for exactly 90 days. After 90 days, logs must be automatically purged.

3. Exception: Under critical security audits, the compliance officer (compliance@arishem.com) may request an extension of retention up to 180 days.

4. Audits: External audits will be conducted quarterly by the internal auditing team.
